

**Newsletter from the Swedish Society for Biochemistry and Molecular Biology
15 June 2011**

**SFBM Symposium 2011 in Tällberg - 18-21 September 2011.
Extended Abstract submission Deadline to 30 June 2011.**

Dear members of the Swedish Society for Biochemistry and Molecular Biology, and friends of the Swedish Biophysical Society.

Welcome to the 2011 Symposium of the Swedish Society for Biochemistry and Molecular Biology and the Swedish Biophysical Society in Tällberg, Dalarna, 18-21 September 2011. This year sees an entirely new setup of our yearly meetings. We hope that the new style will serve the purpose of the meetings optimally: networking among scientists in the molecular life sciences working in Sweden, lobbying for the field and promoting young scientists. A range of international and national top scientists have accepted to speak at the Symposium. A number of presentations will be selected from submitted abstracts. Poster sessions and social events will stimulate networking. Companies active in Sweden will have possibilities to promote their products and services in different ways. The Symposium will also mark the union of the Swedish Biophysical Society with SFBM, which will be formalised during the Symposium. Please visit our website (<http://www.eventus.trippus.se/sfbm2011>) for more information, registration and abstract submission and travel information. Please spread information to your colleagues that are not yet SFBM members.

Note: Abstract submission deadline extended to **30 June 2011**. Please submit your abstract as soon as possible. Instructions available at the Symposium Website.

Important dates:

Early bird-registration deadline: 30 June 2011.

Extended Abstract submission deadline: 30 June 2011.

Late registration deadline: 1 August 2011.

We look forward to seeing you in Tällberg.

Stefan Hohmann

(for the board of SFBM)

**The EMBO Meeting 2011 - Advancing the Life Sciences - Late abstract submission now open!
10-13 September, Vienna**

This annual conference features an impressive line-up of more than 120 world-class scientific speakers, including: Richard Axel, Susan Lindquist, Eric Wieschaus and Giacomo Rizzolatti. The programme includes three plenary lecture sessions devoted to microbiology of infection, genome evolution and neuroscience. A rich selection of topics will be addressed in 21 concurrent sessions exploring classical fields of research and new frontiers in molecular biology. Daily Meet the Speaker lunches, giving access to leading researchers and poster sessions extend the scientific programme. The popular Careers Day offers training for PhD students and postdocs. Some travel grants to attend the meeting are available. On-site professional childcare will be provided.

Late Abstract submission deadline: 27 July 2011.

Late registration deadline: 21 August 2011.

For further information, to submit abstracts and to register, please visit www.the-embo-meeting.org.

Future Events

6-23 June 2011 - *International Course in Yeast Systems Biology, Gothenburg.* [More](#)

25-30 June 2011 - *FEBS Congress 2011: Biochemistry for tomorrow's medicine, Torino, Italy.* [More](#)

10-13 September 2011 - *The EMBO Meeting 2011 - Advancing the Life Sciences, Vienna, Austria.* [More](#)

18-21 September 2011 - *SFBM Symposium in Tällberg.* <http://eventus.trippus.se/sfbm2011>
